

...And now it is time to look back. How have we progressed?

For some 30 years Mass Art has been searching for a larger, more permanent campus. After many promises and many disappointments we have arrived! It has not been a simple move from Overland/Longwood into the Longwood/Huntington campus. The move took hard work and patience from everyone in the Mass Art community. *Everyone* deserves a sincere “thank you” for the accomplishment.

1984, then, will be remembered by all of us as a year of change, the “year of the move.” For this reason we are naming this magazine *Delta*—the Greek symbol for change: progression.

Delta has no captions, just visual images of a year that has seen campus change, Eventworks, Cyclorama, 3rd place hockey finish, 2 senior shows, Loaf Day, and student involvement and progress in most every aspect of Mass Art life.

You were part of these and this book will bring back some memories and hopefully some tender smiles.

Thank you all for a very good year.

Bob Cox
SGA President 1983-1984
